PRESENTERS

Diane Girardin, Dip DH, RDH

 CLASS OF 1972

Course director and instructor for local anesthetic course for dental hygienists and instructor, School of Dental Hygiene, Dr. Gerald Niznick College of Dentistry

... and other faculty members from the School of Dental Hygiene

Diane Girardin is a proud graduate of the School of Dental Hygiene at the University of Manitoba. She is a skilled instructor with over 35 years of practice in preventive, orthodontic and restorative techniques and more than 25 years of clinical teaching.

This course is designed for dental hygienists who would like to become competent in the administration of both block and infiltration local anesthesia.

Emphasis is placed on the mechanisms of pain and a thorough understanding of the pharmacology of drugs used in dentistry and their interactions with the patient's current medical conditions and medications.

The participants are required to do a home self-study component prior to the three-day workshop. A pre-clinical examination on day one of the course will be administered which has a passing grade of 70 per cent. During days two and three, participants will receive over-the-shoulder coaching as they administer local anesthesia on each other. Upon successful completion of the clinical competency examination at the end of the program, participants will be issued a certificate of completion.

LEARNING OBJECTIVES

At the end of the course, participants should be able to:

- Discuss pain including its generation, perception, sources and classifications
- Discuss both traditional and non-traditional methods of pain control
- Identify the anatomy of the head and neck as it pertains to the administration of anesthetic agents
- Discuss the significance of the medical history as it relates to the administration of anesthetic agents
- Describe the pharmacology of dental anesthetics and vasoconstrictors, including adverse reactions, side effects and contraindications
- Administer local anesthesia safely utilizing acceptable infiltration and block anesthetic techniques
- Identify the landmarks, site depth of penetration and anatomy anesthetized for all injections

"I found the course material was very well organized ... I was especially grateful for the time and attention given by the clinical instructors."

PREREQUISITES

Participants must be graduates of an accredited dental hygiene program, hold a current license in their province or state of residence. All registrants must email/fax a copy of their current license, CPR certification, Health Care Provider (HCP CPR Level C), malpractice insurance, and Continuing Professional Development (CPD) Dentistry and Dental Hygiene Participation Agreement to the program coordinator in order to participate.

Please note: participants who have at least one year of experience working in the oral cavity may be more successful in this course.

MEDICAL HISTORY

During the clinical component of this course, all participants are required to act as patients for their colleagues. In order to do this, registrants must submit a completed medical history form along with proof of prerequisites to the program coordinator. Any registrant who is unable to act as a patient for medical reasons must arrange for a suitable patient.

REQUIRED TEXTBOOKS

Course registrants are expected to complete assigned readings over a recommended six-week self-study period before participating in the clinical component of the course.

1. *Pain Management Workshop Manual* (Salme Lavigne) 2017
2. *Handbook of Local Anesthesia* (Stanley Malamed) 7th Edition

Order online at umanitoba.ca/campus/hsbookstore/shoponline.html or visit the Health Sciences BookStore to purchase:

University of Manitoba
Health Sciences BookStore (Brodie Centre)
727 McDermot Avenue, Winnipeg, MB

Monday to Friday, 9:00 a.m. to 5:00 p.m.

REQUIRED ARMAMENTARIUM

The follow items are required and will not be supplied:

- Hemostat
- Lab coat or clinical attire
- Mouth mirror
- Safety glasses
- Self-aspirating anesthetic syringe

LICENSING

This course is recognized by licensing authorities in these provinces:
BC, AB, SK, MB, ON, NS, NB, NL

“All involved with this weekend course were friendly, supportive and very competent.”

GENERAL INFORMATION

REGISTRATION

Register online with AMEX, VISA or MasterCard at cpd-umanitoba.com or call 204-789-3562 to register by phone.

REFUND POLICY

Generally, a registration fee refund may be granted upon written request 14 days prior to the start date of the course; however, an administration fee will be retained. Please refer to each specific event brochure for exact details.

If written or verbal notice of withdrawal is received from a registrant less than fourteen (14) days prior to the date of the event, requests for refunds will be assessed on a case-to-case basis and are at the discretion of the Office of Continuing Competency and Assessment.

CANCELLATION

The University of Manitoba Office reserves the right to cancel or postpone any educational program due to an insufficient number of registrations. The decision to cancel will normally be made at least fourteen (14) days prior to the program date.

Each registrant will be notified by email and provided with a full refund of all registration fees. The University of Manitoba is not liable for any loss, damages or other expenses that such cancellations may cause, including, but not limited to, non-refundable airline fares, hotel penalties or lost income.

DISCLOSURE OF CONFLICTS OF INTEREST

In keeping with accreditation guidelines, instructors participating in our programs are required to disclose to the audience any involvement with industry or other organizations that may potentially influence the presentation of the educational material.

ACCESSIBILITY

The University of Manitoba is committed to accessibility for persons with disabilities. To request accommodations, contact Laura Friesen at Laura.Friesen@umanitoba.ca in advance of your program.
