

PROSTHO/ENDO: THE FORK IN THE ROAD: PART I SATURDAY, NOVEMBER 30, 2019 • 0900

PROSTHO/ENDO: THE FORK IN THE ROAD: PART 2 SUNDAY, DECEMBER 1, 2019 • 0900

6 HOURS CDE CREDITS - PART I (LECTURE)

12 HOURS CDE CREDITS - PART I AND PART 2 (LECTURE)

FEE

Dentist: \$375 Part 1 only November 30

Dentist: \$600 Part 1 and Part 2

November 30 and December 1

Recommended to attend both sessions

LOCATION

Theatre B, Basic Medical Sciences Building
745 Bannatyne Avenue, Winnipeg, MB

REGISTRATION DEADLINE November 22, 2019

PRESENTERS

Jack Lipkin, B.Sc., DMD, FICD(C)

 CLASS OF 1974

Dr. Jack Lipkin completed his undergraduate dental training at the Dr. Gerald Niznick College of Dentistry, University of Manitoba in 1974 and obtained his Masters of Science in Prosthodontics from State University of

New York at Buffalo in 1979 and has maintained a Prosthodontic private practice since that time. Dr. Lipkin has served on numerous committees for the Manitoba Dental Association, including the Economics Committee for 20 years, and currently as Chair of the Specialist Committee.

Robert Kaufmann, DMD, MScD (Endo), CAGS

 CLASS OF 1980

Dr. Kaufmann completed his undergraduate dental training from the Dr. Gerald Niznick College of Dentistry, University of Manitoba and obtained his Doctor of Dental Medicine in 1980 followed by a Certificate of

Graduate Study and Masters of Science in Endodontics from Boston University in 1986. He is a member the Canadian Academy of Endodontics, American Academy of Endodontics and was a founding member of the International Academy of Endodontics.

General or specialist dental practitioners face challenges when making critical decisions on whether treatment of an extensively broken tooth should include endodontic and crown therapy versus performing an extraction followed by implant placement.

Both paths have risks and benefits – how should you choose?

During this course, there will be a discussion of the challenges practitioners face, supported by evidence-based literature review, when making these important decisions.

We'll also explore answers to questions such as:

- What is the definition of a successful endodontic treatment?
- What is a successful implant restorative treatment?
- Can we compare and contrast the two approaches?
- What are the crucial elements and factors that must be ascertained in the diagnostic phase before any clinical treatment takes place?

Part 1 of the course will thoroughly review diagnosis, treatment planning, protocols and processes necessary for appropriate decision-making with respect to this complex problem.

Part 2 will be a discussion on case presentations using the learned principles from Part I and use of CBCT images as a diagnostic tool in the assessment process and treatment planning phase.

LEARNING OBJECTIVES

At the end of the course, participants should be able to:

- Understand the seven guidelines that are an essential and mandatory part of the diagnosis and treatment planning of any implant restoration
- Assess and analyze which teeth are more likely to survive and which teeth should be extracted and restored with implants
- Perform a quick analysis of a single-tooth diagnostic problem to determine if an implant alternative is even feasible
- Have a thorough understanding of diagnostic challenges and be able to present a patient with options of whether to restore or extract
- Perform a complete dental exam of the patient as it relates to endodontic treatment or implant treatment
- Implement a protocol and process for making these diagnostic and treatment planning decisions in their practices
- Recognize the red flags associated with cases that are likely to have problems with a high concomitant failure rate

Continental breakfast and lunch will be provided both days.

GENERAL INFORMATION

REGISTRATION

Register online with AMEX, VISA or MasterCard at cpd-umanitoba.com or call 204-789-3562 to register by phone.

REFUND POLICY

Generally, a registration fee refund may be granted upon written request 14 days prior to the start date of the course; however, an administration fee will be retained. Please refer to each specific event brochure for exact details.

If written or verbal notice of withdrawal is received from a registrant less than fourteen (14) days prior to the date of the event, requests for refunds will be assessed on a case-to-case basis and are at the discretion of the Office of Continuing Competency and Assessment.

CANCELLATION

The University of Manitoba Office reserves the right to cancel or postpone any educational program due to an insufficient number of registrations. The decision to cancel will normally be made at least fourteen (14) days prior to the program date.

Each registrant will be notified by email and provided with a full refund of all registration fees. The University of Manitoba is not liable for any loss, damages or other expenses that such cancellations may cause, including, but not limited to, non-refundable airline fares, hotel penalties or lost income.

DISCLOSURE OF CONFLICTS OF INTEREST

In keeping with accreditation guidelines, instructors participating in our programs are required to disclose to the audience any involvement with industry or other organizations that may potentially influence the presentation of the educational material.

ACCESSIBILITY

The University of Manitoba is committed to accessibility for persons with disabilities. To request accommodations, contact Laura Friesen at Laura.Friesen@umanitoba.ca in advance of your program.
