The George & Fay Yee Centre for Healthcare Innovation (CHI) will be hosting a four-day workshop featuring experts from CHI's **Knowledge Synthesis platform**:

Introduction to Systematic Review Literature Searching

Learning Objectives

This day-long, hands-on session builds on the general information presented in the Systematic Review Introductory Workshop on November 20th. At the end of this workshop participants will:

- Have a better understanding of how bibliographic databases work, and understand how we can use that knowledge to obtain better search results
- Be able to read and discuss complex literature search strategies with a professional librarian
