

ORAL MINIMAL CONSCIOUS SEDATION FOR DENTAL PATIENTS

INSTRUCTORS:

Peter Nkansah, MSc, DDS, Dip. Anaes., FADSA,
Specialist in Dental Anaes (ON), FPFA, FACD
Instructor; Assistant Professor, University of Toronto
Dental Anesthesia Specialist, Sleep for Dentistry

Peter received both his DDS degree and diploma in dental anesthesia from the University of Toronto (U of T).

He is a certified specialist in dental anesthesia and maintains a private practice at Sleep For Dentistry in Toronto.

Peter is an assistant professor at the U of T's Faculty of Dentistry. He also serves as a course director for the U of T's intravenous conscious sedation continuing dental education course, the conscious sedation continuing dental education course at Western University (Canada) and for advanced cardiac life support courses at Sunnybrook Health Sciences Centre.

He is a member of the editorial board for the dental journal Oral Health and is a regular lecturer for dental groups nationally and internationally.

Peter, a sports enthusiast, is the team dentist for the Toronto Raptors of the NBA, the Raptors 905 of the NBA's G-League, the Toronto FC of the MLS, and the University of Toronto Varsity Blues.

COURSE OVERVIEW:

Dental anxiety is an unfortunate reality for many Canadians. While there are a number of ways to address this situation for patients, one of the most effective is the use of oral sedatives. There are a number of categories of medications available for this purpose, including benzodiazepines, antihistamines, "natural" sleep aids (e.g. melatonin, chamomile), and a host of others. One of the keys in the management of dentally anxious patients is for dentists to learn to make the safest and most effective pharmacologic choices for them.

This course will focus on how to recognize patients that might benefit from minimal conscious sedation; that is, relaxation that allows patients to independently maintain their own airway while making their dental experience less frightening. Patients in this state can ask and answer questions during their appointment.

At the successful conclusion of this course, participants will be certified to provide oral minimal conscious sedation for their patients [according to MDA Bylaw for Pharmaceutical Behaviour Management].

LEARNING OBJECTIVES:

At the conclusion of this educational activity, the participants should be able to:

- Review provincial sedation bylaws
- Conduct appropriate patient selection and assessment
- Understand sedative medication pharmacology
- Understand oral sedation protocols
- Recognize and manage sedation emergencies

SATURDAY, FEBRUARY 9, 2019

6 HOURS CDE CREDIT

LOCATION:

Theatre B
Basic Medical Sciences Building
745 Bannatyne Avenue
Winnipeg, MB R3E 3P5
University of Manitoba

REGISTRATION: 0830 – 0900

LECTURE: 0900 – 1600

REGISTRATION FEE: DENTIST - \$495

Continental breakfast and light lunch provided

REGISTRATION DEADLINE:

January 25, 2019

This course satisfies the Manitoba Dental Association's bylaw requirements for Initial Qualification/Training and Continuing Competency certification to administer conscious sedation of a single oral sedative agent.

ORAL MINIMAL CONSCIOUS SEDATION FOR DENTAL PATIENTS

SATURDAY, FEBRUARY 9, 2019

REFUND POLICY:

Registrants can receive a refund provided they give written notice no later than fourteen (14) days prior to the event. An administration fee of \$100 will be retained to cover staff costs of processing refunds and other costs associated with cancellations.

If written or verbal notice of withdrawal is received from a registrant less than fourteen (14) days prior to the date of the event requests for refund will be assessed on a case-to-case basis and are at the discretion of the Office of Continuing Competency and Assessment.

The University of Manitoba Office reserves the right to cancel or postpone any educational program due to an insufficient number of registrations. The decision to cancel will normally be made at least fourteen (14) days prior to the program date. Each registrant will be notified by email and provided with a full refund of all registration fees. The University of Manitoba is not liable for any loss, damages or other expenses that such cancellations may cause, including, but not limited to, non-refundable airline fares, hotel penalties or lost income.

DISCLAIMER:

The information presented in continuing education courses offered at the University of Manitoba are for educational purposes and not intended to supersede the professional judgement of participants in rendering patient care. Participants are cautioned about the dangers of incorporating techniques and procedures into their practices without adequate clinical experience.

Institutions of dental education have an obligation to disseminate new knowledge and training related to dental practice. Some courses may include controversial materials, philosophies of practice, or commercial references. When a company sponsors a continuing dental education course at the University of Manitoba, this does not imply that the University of Manitoba endorses a particular philosophy, procedure or product.

STUDY CREDITS

This course is designed for up to **6 hours** of Continuing Dental Education Credits.

Rady Faculty of Health Sciences, University of Manitoba
Nationally Approved PACE Program Provider for FAGD/MAGD credit.
Approval does not imply acceptance by any regulatory authority or AGD endorsement.
