WORKSHOP OBJECTIVES:

- Summarize the current evidence for earlier food introduction and distinguish which children require referral for food allergy testing (Family Medicine Expert, Scholar, Leader).
- Explain what constitutes normal sleep in each stage of childhood and formulate an approach to common sleep disorders (Family Medicine Expert).
- Identify common signs of child abuse and explain reporting guidelines (Family Medicine Expert, Professional).
- Examine normal development in childhood and select appropriate resources to utilize in the setting of developmental delay (Family Medicine Expert, Leader).
- Explain the core features of Autism Spectrum Disorder and implement an approach

THIS PROGRAM WILL BE OF INTEREST TO FAMILY PHYSICIANS, FAMILY MEDICINE RESIDENTS, NURSE PRACTITIONERS, NURSES, AND OTHER HEALTH PROFESSIONALS WORKING IN URBAN OR RURAL SETTINGS.
