15	too much didactic lecturing, not enough relevance in specialist's presentations to translate to usefulness in the "specialty" of generalist practice	1/13/2020 12:49 PM

17	no	1/13/2020 11:11 AM
18	I like the new question format with slido I personally would get more out of the sessions if the slides/presentations were available to me online before listening to the presentation.	1/13/2020 9:50 AM
19	I am aware that CPD programming is meant primarily for physicians who treat a wide range of health problems, but, as a psychologist, I found it really valuable to attend CPD teachings that were in line with my narrower interests and expertise with co-occurring addiction and mental health. I don't expect every CPD teaching to be relevant to my work, but I look forward to attending those that are.	1/13/2020 9:31 AM

31	The MEDS conference in 2019 was accessible by internet - so far that is the most desirable format for CPD that I have experienced	1/10/2020 5:54 PM
