In Collaboration with the University of Manitoba the Health Sciences Centre Winnipeg presents

## THE 27th ANNIIA

## **Overall Program Objectives:**

By attending this program, the attendee will be able to:

- 1. State the names of the key pathogens that have been clinically and socially relevant over the past 27 years.
- 2. State how the determinants of health influence a person's risk for infection
- 3. State how to modify risk factors for the acquisition of infection
